

Lara Gen Enterprises LLP

Products and Solutions for Everyone

www.lara.ind.in

INTRODUCTION

We are an ISO 9001:2015 Certified Company

Lara is a trusted industrial and commercial products sales and service provider with over three decades of industry expertise. The company delivers high-quality products supported by strong technical knowledge, ensuring efficient and reliable solutions for diverse client needs. With a focus on precision, affordability, and on-time delivery, Lara combines technical excellence with exceptional post-sales support. By aligning solutions closely with customer requirements, the company builds long-term partnerships founded on trust, transparency, and service excellence.

We Focus on Understanding client requirements and providing the best solutions through our range of products.

Products

- UPS - Uninterrupted Power Supply
- ESS - Energy Storage System
- MDC - Micro Data Center
- LV & MV - Switchgears and Fuse Links
- Power Distribution Products
- Hybrid Power Factor Panels
- Stabilizer and Auto Transformers
- Sandwich and Air Insulated BBTs
- Industrial Lighting Products
- SMF and VRLA Batteries

Features & Benefits

Our Product features:-

- Intelligent Power Management
- Power Quality Products
- Best Energy Storage System
- Brightlayer Data Centers Suite
- Critical Equipment Protection
- Active Power Filter
- Static Var Generator

Eaton

Crompton

Delta

EAE Electric

Powering Business Worldwide

Single Phase UPS

- PC, Workstation and Home AV UPS (600VA to 1000VA)
- Network and Server 9145 (10KVA to 20KVA)
- Network and Server 91PS (8 to 30KW)

Specialized Application UPS

- Rack and Tower Convertible
- Online and Double converter (1KVA to 3KVA)
- Marine UPS (1500W to 3000W)

Energy Storage System

- Medium Size Commercials and Industrial applications
- Compatible with PCS (Power Conversion System)
- Equipped GPC (Grid Point Controller)
- LV & MV - Switch Gears

Fuse Links / Semiconductor Fuses

Three Phase UPS

- Data Center (15KVA to 500KVA) - 93E
- Facility (25KW to 1200KW) - 93PR
- Industrial (250KW to 1200KW) - 9395P

Micro Data Center

- Real Time Monitoring - Power, Space, Connectivity, Cooling
- Lithium Battery Compliance

EV Charging Infrastructure

- Wall mount AC chargers 7KW to 22KW and DC chargers up to 120KW with modular design

Active Power Filter

- Multifunctional: Harmonic, reactive power and imbalance compensation
- High harmonic filtering rate: Up to 98%
- Excellent reactive compensation: High speed, Precise ($-0.99 \leq PF \leq 0.99$), Step-less, Bi-directional (capacitive and inductance) compensation
- Excellent imbalance correction: Both negative and zero sequence, mitigates neutral current
- Wide capacity range: 30~750 A for a single cabinet, up 10 cabinets in parallel
- Flexible application: Modular design, embedded in standard or customized cabinet
- Easy installation and maintenance: Plug-in installation for APF module replacement and expansion
- Wide input voltage & frequency range, adapts to tough electrical environments

Static Var Generator

- Excellent imbalance correction: Both negative and zero sequence, mitigates neutral current
- Harmonic Elimination Range: 2nd~25th order (Selectable)
- Harmonic current capacity: 20% of rated current, 100 kvar SVG can output 30A H2-H25 harmonic compensation current
- Environmental adaptability: -10~50°C temperature, compatible with diesel generators

Servo Stabilizers (Air Cooled - Oil Cooled)

- Advanced Voltage Regulation for Critical Equipment Protection. KRYKARD Servo Stabilizers provide precise voltage control with $\pm 1\%$ accuracy, ensuring optimal performance and longevity of sensitive electronic equipment.
- KRYKARD Servo Stabilizers provide critical voltage regulation across diverse industries, ensuring equipment protection and operational efficiency in challenging power environments.
- Product rating also mentioned in kVA.

EnerRocket®

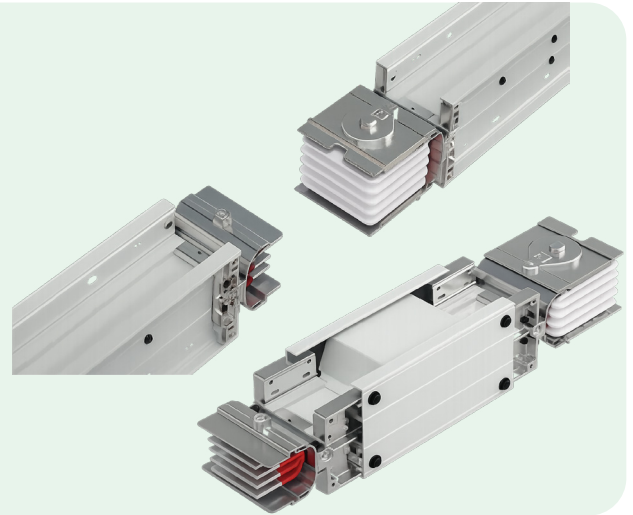

- Equipped with UL-certified flame retardant materials, EnerRocket Battery containers provide superior fire protection
- Unleash superior battery performance: We use only the purest virgin lead, boasting 99.99% purity, for exceptional reliability and longevity
- By using Virgin lead, EnerRocket achieves industry-leading internal resistance in its batteries, translating to longer life and higher efficiency
- Powered by its innovative plate technology, EnerRocket delivers unmatched power and energy density
- Built from the strongest foundation: EnerRocket's ABS container utilizes high-grade ABS plastic, renowned for its superior tensile strength and unparalleled endurance
- EnerRocket's reliable AGM (Absorbent Glass Mat) batteries boast impressive absorption capabilities and superior stability, keeping your critical operations running smoothly
- Experience reliable power delivery, even under demanding conditions, with our proven high-rate discharge design
- Product rating also mentioned in AH (7AH to 200AH).

Static Var Generator (CU/AL)

- EAE Industrial E-Line CCR Busbar - (600A upto 6300A)
- EAE Industrial E-Line MV Busbar - (950A upto 5000A)
- EAE Industrial Dabline Busbar - (63A upto 80A)
- EAE Industrial E-Line KX/KO-II Busbar - (400A upto 4300A)
- EAE Industrial E-Line CR Busbar - (630A upto 6300A)
- Product Range : $\frac{\text{Amp to Ampere}}{\text{Aluminum / Copper}}$
